Re: Second Request for Information Under 42 U.S.C. §9601 et seq.  
Diamond Alkali Superfund Site, Operable Unit 2

Dear Mr. Palmer:

The United States Environmental Protection Agency ("EPA") has reviewed your response to our "Request for Information" letter dated January 26, 1994. Your response dated February 15, 1995 was inadequate. While you stated that you had no information or records that would be responsive to our request, it is clear that you at least have information with respect to when Ogden Alloys operated Barth Smelting and Refining, information on Ogden Services Corporation, and a copy of the sales agreement between Ogden Alloys, Inc., and North American Smelting Company. In addition, it appears that you have not performed a complete investigation (including consulting with current and former employees) as instructed to determine if any further information responsive to our request is available.

Therefore, EPA is submitting this second "Request for Information". You must answer the questions in Attachment A of this letter and include documents supporting your responses. The "Certification of Answers to Request for Information," must be attached to your response with your notarized signature.

EPA makes this request pursuant to Section 104 of CERCLA, 42 U.S.C. § 9604. All the statutory provisions and instructions in EPA's prior "Request for Information" letters are applicable to the information requested in this letter. In preparing your response to this "Request for Information," please follow the instructions provided in Attachment B.

Your response to this "Request for Information" should be postmarked or received by EPA within thirty (30) calendar days of the date of this letter. Your response should be mailed to:
